

Thriving leaders in flourishing communities

LinC began in 2014 and over five years has worked alongside 200 communities and their leaders from Waiwera/Little River and Rolleston to Brighton and Hurunui, and communities of interest from social enterprise, youth, environment, sporting, papatipu rūnanga, cultural, faith, disability and the creative arts.

We all benefit, and belong...

We all benefit from being part of communities where we can feel a sense of belonging and contribution. These might be physical communities, the streets where people live, recreation clubs, culture groups, churches, fellow artists or sporting mates.

... and lead in different ways

These communities are the result of individuals, whānau and families within them showing initiative, hosting gatherings and embracing opportunities.... basically leading. When leaders get exhausted, over stretched and sometimes stop their quiet leadership roles, communities can begin to fragment and each of us involved in that community also feel the impact.

LinC is about supporting and growing these leaders to keep them thriving, renewed and in the game

Weaving our journeys together

Creating space to grow, share...

LinC creates space where our individual and collective journeys can be woven together to benefit our communities. Based on the tikanga of the powhiri process – we move into the ātea/space for conversation, listening, debating and growing common understanding as people of Aotearoa and our respective whānau and communities.
